

Module 3: Probability  
Module 9: Simple Linear Regression  
Module 10: Multiple Linear Regression

Professor Edward L. Boone

Edward L. Boone is a Professor of Statistics at Virginia Commonwealth University in Richmond Virginia USA and has been teaching Statistics for 17 years. He has been very active in research in Statistics as has a passion for teaching. Learning should be fun and complex ideas should be presented first from an intuitive approach. He is currently the Publications Officer for the Section on Statistical Consulting of the American Statistical Association and the President Elect for the Southern Regional Council on Statistics.
